Course Overview

This course is the Hybrid course that offers 8 hours of cognitive materials on-line and 8 hours of in-person learning. The on-line portion must be completed, and a proof of completion brought for admittance to the in-person class. This is an advanced-level course, it is the responsibility of the student to prepare for the course with pre-reading and to be ready for a fast-paced agenda.

Course Description

The AMLS course emphasizes the use of scene size-up, first impression, history, detailed physical assessment, and interactive group discussion on differential diagnosis and potential treatment strategies to systematically rule out and consider possibilities and probabilities in treating patients' medical crises. The fourth edition AMLS library of over 75 patient simulations offers students an opportunity to apply critical thinking skills to a variety of patient presentations. Additional features include patient simulation monitor images and ECGs provided by iSimulate, to enhance students' experience.
